100ah power station for sale in New-Zealand

Overview

Why should you buy a portable power station in New Zealand?

New Zealanders love staying connected while they're out and about on holiday. Our range of portable power stations and solar-powered products ensures your devices are constantly charged on the go. Get the amps you need on-location and enjoy freedom from noisy generators. Shop for portable power solutions at Trade Tested online.

Which portable power station should I buy?

The ideal portable power station to buy depends on which devices you plan to use and how long you will travel without access to a recharging point. Our 1526Wh power station offers triple the power capacity of the 555Wh model, making it the best choice for people continuously on the road or whose camping trips last longer than the weekend.

Are Hyundai power stations a good replacement for a diesel generator?

Packed with a large lithium-ion battery, our Hyundai power stations are like a massive portable power bank. Both models come with NZ-compatible AC outlets, plus a range of ports, including USB. Made from quality components, the Hyundai power stations are an excellent replacement for a diesel generator.
