

## **12 6 kW solar energy**

## Overview

---

What is a 12 kW solar system?

12 kW solar panel systems are a good solution for homes bigger than the average. The size of the system allows it to generate the right amount of electricity required to meet the daily needs of a large household. Keep in mind that 12 kW solar system is quite big and you will likely need around 75 m<sup>2</sup> free roof space.

How much energy does a 12 kW solar system produce?

A 12-kW solar system produces 60000 watts of energy each day when exposed to the right amount of sunlight. The exact amount of energy produced depends on the location and tilt angle of the system. Some panels in the system generate 1800 kilowatts.

Why should you choose a 12Kw solar panel system?

By producing your own clean energy with a 12kW solar panel system, you can potentially reduce your energy bills and cut down on your carbon footprint. At GreenMatch, we can connect you with up to 4 professional solar panel installers in your area who can provide you with tailored advice and quotes for a 12kW solar panel system.

How much does a 12 kW solar system cost?

A 12 kW solar panel system costs \$29,880 in 2025 before incentives. A 12 kW solar panel system produces about 17,420 kWh of electricity annually, but the exact amount depends on where you live and how much sun you get. The federal solar tax credit ends December 31, 2025—homeowners have only until the end of this year to secure 30% savings.
