

1MW Photovoltaic Containerized Substation for Yerevan Power Grid

Overview

What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas with high pollution, high humidity, extreme temperatures or sand storms. Containers are easy to transport and fast to install, by reducing foundation works as well as installation and commissioning effort on site.

Which inverter is used in ABB megawatt station?

ABB central inverters are used in the ABB megawatt station. The inverters provide high conversion with low auxiliary power consumption. TransformerThe ABB megawatt station features an ABB vacuum cast coil dry-type transformer. The transformer is designed to meet the reliability.

What is a solar power station?

worldwide in conventional power transmission installations. A station houses two ABB central inverters, an optimized transformer, MV switchgear, a monitoring system and DC connections from solar array. The station is used to connect a PV power plant to a MV electricity grid, easily and rapidly. To meet the PV power plant's demand.

What is Sunway ESS battery energy storage system (BESS)?

Sunway ESS battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.
