

# 25kW Off-Grid Solar Containerized Substation for European Power Grid Distribution

## Overview

---

What is a solar grid substation?

Solar Grid Substation - outdoor switching stations to connect a full solar park to the grid, manufactured in sheet metal housing consist of medium voltage switchgear (gas insulated - GIS or air insulated - AIS type) per client's requirements fully equipped with all protection relays, measurements, monitoring and control systems.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas with high pollution, high humidity, extreme temperatures or sand storms. Containers are easy to transport and fast to install, by reducing foundation works as well as installation and commissioning effort on site.
