

40-foot Columbia photovoltaic energy storage container used at drilling site

Overview

What is a 20ft & 40ft solar container?

Whether you choose the 20ft or 40ft version, the interior can be configured to house the required number of solar panels, batteries, inverters, and other components, providing flexibility to meet varying energy demands. On-Board Energy Storage: To ensure uninterrupted power availability, these containers come with advanced energy storage solutions.

What is a mobile solar container portable PV power station?

Introducing our cutting-edge solution for sustainable energy production: the Mobile Solar Container Portable PV Power Stations. Available in both 20ft and 40ft variants, these innovative containers are designed to revolutionize the way we harness and utilize solar power.

What are mobile solar containers?

Available in both 20ft and 40ft variants, these innovative containers are designed to revolutionize the way we harness and utilize solar power. Efficient Solar Power Generation: Our Mobile Solar Containers are equipped with high-efficiency solar panels that capture and convert sunlight into clean, renewable energy.

Can a mobile solar container run a petroleum company?

Once deployed, runs indefinitely without the need to supply fuel. Petroleum companies often operate in distant locations with limited access to grid power. This is where a mobile solar containers can act as an additional power source to run the equipment.
