

40-foot folding container for agricultural irrigation in Niue

Overview

What is container farming?

In the decade since then, container farming has evolved into an important subset of the indoor agriculture industry. Used or purpose-built 40-foot containers are used as shells to house hydroponic farms which can be set up vertically or horizontally. The containers are climate controlled and use indoor growing lights to replicate the sun.

What are 40 ft containers used for?

Used or purpose-built 40-foot containers are used as shells to house hydroponic farms which can be set up vertically or horizontally. The containers are climate controlled and use indoor growing lights to replicate the sun. Learn more about container farming [The Advantages of Container Farming](#).

What sizes are available for agricultural storage?

Our most popular solutions for agricultural storage are the 20- and 40- foot containers. We also have a range of products in other dimensions that can be customized to fulfill your specific needs. Other options include double-door and high-security storage, which are ideal for storing high-value equipment.
