500kW Foldable Container for Wastewater Treatment Plants in the Asia-Pacific Region

Overview

What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.

How many m³ of wastewater can a containerized wastewater treatment plant handle?

We have experience with containerized wastewater treatment plants for up to 1,380 PE or 207 m³ of wastewater per day. A wastewater treatment plant is only as effective and efficient as the installed system.

What is a Biocell water containerised wastewater treatment plant?

Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing infrastructure. Containerized mobile treatment systems are ready to use immediately on delivery and cater from 60 persons to 20,000 persons capacity.

Where are Klaro containerized wastewater treatment systems made?

KLARO containerized wastewater treatment systems are all manufactured, pre-assembled and tested at our site in Bayreuth. You can rely on the top quality of all installation parts. Thanks to the high-quality workmanship, the systems can be operated in any climate zone.
