5g outdoor small base station

Overview

Which small cell base stations are available for 5g-nr?

CableFree is offering Small Cell base stations for 5G-NR: Available in many different frequency bands and options CableFree has developed a range of Small Cells offering 5G-SA (Standalone) capacity and performance for Outdoor and Indoor applications. CableFree Small Cells offer advanced features including::

What is a CableFree 5G small cell base station?

All of the the CableFree range of Small Cell products feature latest generation technology and upgradable features for future-proof networking and performance. CableFree 5G Small Cell Base Stations offer advanced features and “stand alone” capability for private 5G networks.

What is a 4G & 5G LTE base station?

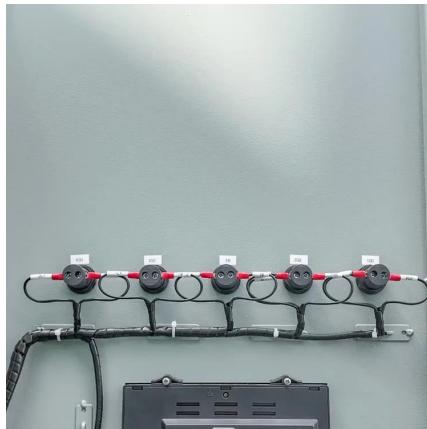

Covering all common 4G and 5G LTE bands, the base stations feature software-defined radio, allowing great flexibility of operation and future upgrade paths. The CableFree Advanced 4G and 5G LTE SDR (software-defined radio) Small Cell Base Station – Outdoor Version – is suitable for a wide variety of applications.

What is a 5G small cell gnodeb base station?

5G Small Cell gNodeB base stations from CableFree, part of the Emerald range of Base Station and core EPC products featuring advanced cellular technology. All of the the CableFree range of Small Cell products feature latest generation technology and upgradable features for future-proof networking and performance.
