

60V high power inverter

Overview

What is a high efficiency power inverter?

High efficiency power inverters which use a modified sine wave to power 230V mains equipment from a 24V battery • Designed to work with most modern day lorries or marine power systems that run of a 24V alternator • Over 85% efficiency • Soft start minimise.

What is a pure sine wave inverter?

Only 6 left in stock - order soon. [High efficiency conversion]: The inverter provides 12V 24V 48V 60V DC to 110/120V 220V/230V AC pure sine wave technology, with high conversion efficiency (>90%), low no-load loss, and more energy saving. [Pure Sine Wave Inverter]: Pure sine wave inverter provides true 3000W continuous power and 6000W peak power.

What makes a good inverter?

The durable aluminum housing protects the inverter from drops and bumps. [Material]: Large and durable aluminum alloy shell provides advanced anti-drop and anti-collision protection. Smart cooling fans help reduce heat and prevent shortages. Some of these items ship sooner than the others.

What protection does the inverter offer?

[Protect your device]: Includes short circuit protection, input overvoltage/undervoltage protection, output short circuit, overload, overcurrent, and overtemperature protection. The durable aluminum housing protects the inverter from drops and bumps.
