# 695 solar panel dimensions and weight

## Overview

---

Can Canadian Solar 695w Topcon bifacial panels be installed on my roof?

A: Hi! Yes, you can install the Canadian Solar 695W TOPCon bifacial panels on your roof. However, if you plan to utilize the bifacial gain which can increase energy yield by up to 20% with optimal ground reflectivity. It is recommended to ground mount them. This setup allows the panels to capture sunlight from both sides, maximizing efficiency.

Where will a Topcon 695w bifacial panel be delivered?

This product will be delivered to a Terminal or Business with loading dock and requires pickup. Canadian Solar's N-type TOPCon 695W Bifacial Panel is engineered for utility-scale performance, delivering exceptional efficiency, durability, and energy yield.

What is a solar panel size?

Solar panel size is measured in watts (W) and indicates how much electricity the panel can produce under standard test conditions. Here's the key distinction every homeowner should understand: Most residential solar panels in 2025 come in three main configurations:.

How much weight can a solar panel support?

Solar panel weight is a critical factor for roof structural integrity: Most residential roofs can support 20 pounds per square foot, making solar panels well within safe limits. However, older homes or those with structural concerns should have a professional assessment. Panel thickness typically ranges from 1.4 to 2.0 inches, affecting:
