

# **6MW base station-level solar container battery container liquid cooling system**

## Overview

---

What is a containerized battery energy storage system?

Provide users with a peak-valley electricity price arbitrage mode and stable power quality management. Shipped in a 20ft container, Sunwoda's containerized battery energy storage system (BESS) is an all-in-one energy storage solution for various scenarios.

What is a sunwoda battery cluster?

Sunwoda battery cluster modular unit consists of a standard rack-based battery module (battery pack) and a comprehensive multi-level battery management system (BMS). The team behind LBCS is ready to help you with professional integration support in terms of new or existing solar power, wind power, thermal power, and more.

What are the features of a PCs container system?

Individual pricing for large scale projects and wholesale demands is available. Max. Charge/Discharge power The container system is equipped with 2 HVACs the middle area is the cold zone, the two side area near the door are hot zone. PCS cabin is equipped with ventilation fan for cooling.

What is liquid-based battery thermal management system (BTMS)?

A systematic review of liquid-based battery thermal management system (BTMS) is carried out. The multi-optimization process is refined and summarized to improve various objectives. Typical liquid-based BTMS models are rebuilt and simulated under uniform circumstances.
