

# **Abu Dhabi Energy Storage Project Capacity BESS**

## Overview

---

Will Dubai's new solar power plant be able to operate 24/7?

The facility will be capable of operating 24/7 on renewable energy. This will also be the world's first 24/7 solar PV, battery storage gigascale project, according to Abu Dhabi Future Energy Company (Masdar) and Emirates Water and Electricity Company (EWEC), which are part of the project.

What is a 6b solar project in Abu Dhabi?

Edit by paco CATL and Masdar launch a \$6B solar and battery project in Abu Dhabi, delivering 1 GW of 24/7 clean energy—setting a new benchmark in renewable power.

Will the UAE deploy 300mw/300mw of Bess capacity by 2026?

It follows EWEC's recommendation made this time last year that the UAE should deploy 300MW/300MWh of BESS capacity by 2026. It didn't reveal when it hoped the 400MW (MWh capacity undisclosed) would come online, so it's not clear whether this is part of a longer-term target or whether its forecasted needs have increased.

How many GW of baseload power can a Bess project deliver?

The project will be capable of delivering up to 1 GW of baseload power 24 hours a day, setting a global benchmark for the development of clean energy. CATL, as preferred supplier for the BESS, will provide its latest TENER technology for the total capacity of 19 GWh.
