

# **After-sales service for 500kWh solar container**

## Overview

---

How much does a solar energy storage system cost?

100-500KWH Energy Storage Banks in 20ft Containers. \$387,400 Solar Compatible! 10 Year Factory Warranty 20 Year Design Life The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the voltage requested.

How can a container be used for energy storage?

Containers can be placed together to create even larger energy storage banks (1MW with 2, 1.5MW with 3 etc.) One of the largest energy storage battery systems available! Every solar storage system requires an effective battery bank that can help in storing the energy and using it to the utmost later on.

How much does a 500kWh bank cost?

Price is \$387,400 each (for 500KWH Bank) plus freight shipping from China. To discuss specifications, pricing, and options, please call Carl at (801) 566-5679. Each container with all of the equipment will weigh less than 16 tons.

## After-sales service for 500kWh solar container
