

All in one solar power system in Ireland

Overview

Who installs solar panels in Ireland?

SE Systems, the #1 name in energy solutions in Ireland, installs solar panels. Power your home with solar and battery storage—expertly installed by SE Systems. Save on energy bills with Solar PV Panels by SE Systems.

How much do solar panels cost in Ireland?

In 2025, the cost of solar panels in Ireland varies depending on your system size, battery choice, and home type. Most homes will pay between €5,200 and €9,000 for a standard solar PV system. Adding a battery typically increases the total cost to €10,000–€14,500, but may also boost savings over time.

Can I get a solar panel grant in Ireland?

Whether you're exploring solar panels in Ireland for the first time or ready to apply, the SEAI grant 2025 is standard across counties, including Dublin, Cork, Galway, and beyond, as long as you meet the key solar panel grant eligibility criteria. Solar panel prices and installation timelines can vary depending on your location.

How much energy does a solar system use in Ireland?

Well, the average Irish household uses around 4,200 kWh of electricity per year. If you really want to get value out of your new solar system, you should aim to cover at least 75% of your energy consumption – meaning that average home would need 8–10 panels, most likely with a 4kW system or higher.
