# Atl in solar container battery

## Overview

---

### Who is ATL batteries?

ATL is the world's leading producer and innovator of lithium-ion batteries. We are known worldwide for our high-tech, high-volume prowess in developing, producing and packaging high quality rechargeable lithium-ion battery cells and packs. Our service, know-how, production capacity and system integration capability is impressively outstanding.

### What makes ATL arbitrary shaped lithium-ion batteries unique?

ATL's arbitrary shaped lithium-ion batteries epitomize design innovation, offering flexible forms and intricate craftsmanship. From perforations and recesses to stepped structures, grooves, or chamfered edges, our batteries transcend conventional shapes, making the extraordinary possible and bringing visionary designs to life.

### Where is ATL battery made?

With this bold vision, ATL was established in Hong Kong, laying its manufacturing foundation in Baima, Dongguan. From its inception, ATL embraced innovation, introducing cutting-edge lithium polymer battery technology from Bell Labs in the United States and committing to robust independent research and development.

### What is ATL Li-ion battery?

The ATL Li-ion battery product family includes high energy density, high power, fast charge and arbitrary-shaped cells and so on. To cope with or even lead the market demand, we have developed various types of li-ion battery cells to meet the needs of many different consumer electronics devices.
