

BAIC battery pack

Overview

What is OS battery pack?

On June 4th, the OS battery pack developed by CALB for BAIC's new generation of electric vehicles was successfully launched in Chengdu. CALB's product for the BAIC project is the world's first One-Stop (OS) lithium iron phosphate (LFP) battery pack.

How BAIC BJEV has overcome the problems in battery swap technology?

BAIC BJEV, together with its partner Shanghai Electric Bus, have overcome the problems in battery swap technology, such as vehicle manufacturing consistency, fault tolerance of battery assembly, and safety and reliability of connection.

What is BAIC BJEV?

BAIC BJEV has been centered around developing battery, motor and electric control technology, and has gone through three generations of technology upgrade in the last ten years. It has overcome the technological problem of improving the utilization ratio of battery power under high security design standard.

What is BAIC Group?

BAIC Group is a backbone enterprise in China's automobile industry, headquartered in Beijing.
