

BESS dedicated solar container outdoor power

Overview

Hitek Energy outdoor containerized BESS delivers high-capacity lithium energy storage with robust weather resistance, modular design, and smart control—ideal for grid or renewable integration. What are the benefits of a Bess container energy storage system?

It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. The BESS Container 500kW 2MWh 40FT Energy Storage System Solution is a cutting-edge, highly integrated energy storage solution designed for large-scale applications.

What is a Bess container?

Our fully integrated BESS container is a complete, plug-and-play solution. It comes pre-equipped with all essential and advanced systems, including: This turnkey energy storage solution ensures seamless deployment, minimal on-site work, and optimal safety and efficiency for utility-scale or commercial & industrial (C&I) applications.

What is a Bess system?

A BESS is a complex device with intricate technical components. These include battery cells, typically lithium-ion, and inverters that transform direct current (DC) to alternating current (AC). There are multiple control systems, including battery management, power conversion, fire safety, and more. These systems come in a range of sizes.

Can You enclose a Bess in a garage?

You might have a small BESS mounted in your garage to charge your electric vehicle. A residential BESS that powers your home in an outage might be the size of a mini fridge. But larger applications, like a solar farm, require much larger systems. And the bigger the BESS, the bigger the challenge to enclose it.
