Baghdad kaco inverter manufacturer

Overview

Who is Kaco New Energy?

KACO new energy has been a pioneer in inverter technology since 1998. The German manufacturer offers inverters and system technology for solar power systems as well as solutions for battery storage and energy management for large consumers.

Who makes KACO inverters?

Since 1999, the Neckarsulm-based company has supplied over 900,000 inverters with a cumulative output of 20 gigawatts. KACO new energy was the first company in the photovoltaic industry to produce its inverters CO2-neutrally. In 2024, the company celebrates its 25th anniversary.

Are KACO powador inverters made in Germany?

All KACO Powador inverters are manufactured in Germany with a minimum warranty of 5 years (some are 7 years warranty). The KACO Powador inverter range TL3 have the same operating range MPPT from 6kW to 60kW: from 100 to 800V. In addition, they are all equipped with a data logger as well as multi-tracker technology.

What are the advantages of KACO inverters?

KACO Inverters have a lot of important advantages: (1)They are configurable with many different types of panels and voltages. This is because the input voltage capacity is up to 800V DC (Type Xi). (2) The inverters have a 7-year warranty which not many manufacturers offer.
