Bangkok Photovoltaic Container Three-Phase Lighting for Urban Lighting

Overview

Can LED streetlights save energy in Bangkok?

The government of Thailand plans on replacing legacy light fixtures in Bangkok with over 400,000 LED streetlights, providing an energy savings of 70%. Forth streetlights using Lumileds high-power LEDs were chosen for the project due to their high flux, high efficacy and reliability.

Who is ledvast lighting factory Thailand?

Ledvast Lighting Factory Thailand is our modern, cutting-edge lighting factory based in Thailand. It has been strategically positioned to deliver exceptional lighting products to markets worldwide.

How effective are LED streetlights in Thailand?

Thailand has yet to install all 400,000 LED streetlights on its residential areas and highways, but the results to date with Forth ECO-ONE and ECO-TWO fixtures have been extremely promising. Due to the very high efficacy of the LUXEON LEDs and Forth streetlights, Thailand is able to realize a 70% reduction in energy usage.

Why should you choose ledvast lighting factory Thailand?

Every step is meticulously executed at Ledvast Lighting Factory Thailand, resulting in lighting fixtures that stand out in terms of performance and design. Quality assurance is at the heart of Ledvast Lighting.
