

# **Base station PAD power supply**

## Overview

---

Which power supply mode is used for micro base station?

For the micro base station, all-Pad power supply mode is used, featuring full high efficiency, full self-cooling and smooth upgrade for rapid deployment and site construction & operation costs reduction.

How a power supply system can be modularized?

The rectifiers, power distribution modules, sub-racks, batteries, power supply systems, and cabinets can be modularized to meet customer requirements. Through the power supply modularization, the 1+1 expansion of the power supply system, the system reach common management, common redundancy and co-power backup.

What are the benefits of a power supply system?

The power supply system features highly intelligent software, energy efficiency improvement, energy saving, OPEX reduction, and comprehensive increase of customer benefits.

## Base station PAD power supply
