

Belize Solar Container 60kWh

Overview

Is a grid-tie Solar System a viable option?

If your monthly electricity bill exceeds BZD 500 and your energy consumption is mostly during the day, then adding a grid-tie solar system with or without battery back-up is more economically viable than going completely solar off-grid. Will my grid-tie solar system stay on during a grid outage?

.

Does Bel pay for excess electricity?

BEL presently provides compensation for excess electricity fed into the grid, applied as a credit to customers' accounts.

Should I buy or have my solar system financed by DFC?

You can buy the system or have it financed by DFC. You decide what works best for you. Sit back and watch as your new solar array comes to life. "Since our system was installed, our utility expense has decreased significantly, which has resulted in more flexibility in our cash flow than we would otherwise have."
