

LLSE CONTAINERS

Berlin solar energy storage solar container lithium battery manufacturer

Overview

What is tesvolt energy storage system?

State-of-the-art prismatic lithium battery cells from Samsung SDI combined with our patented and TÜV-certified Active Battery Optimizer smart cell control system form the core of our storage systems. TESVOLT energy storage systems are the economical choice for the most demanding applications.

Where do we develop smart energy solutions?

At our Göttingen site – one of 14 manufacturing facilities around the globe – we develop smart energy solutions across 27,000 m² of production space, powering innovation in industries worldwide. Our product portfolio ranges from electrolyte solutions for battery cell development and ready-to-use battery cells to fully customizable battery modules.

Why should you choose tesvolt energy storage systems?

TESVOLT energy storage systems are the economical choice for the most demanding applications. Made in Germany, in Europe's first ever gigafactory for stationary battery storage systems, in Lutherstadt Wittenberg. Quality, performance, and optimum interplay between the individual components set our storage systems apart from the rest.

Are battery storage systems generating revenue?

This has been reported by battery storage provider Tesvolt and its subsidiary Tesvolt Energy. Over several months, the outdoor storage system was tested in ten different customer projects. Those storage systems used exclusively for energy trading are already generating monthly revenues in the four- to five-figure range.
