# Best portable power station for tv distributor

## Overview

---

What is the best portable power station?

A heavyweight beast of a power station, this unit boasts battery expansion, loads of ports, and the high battery capacity and output required to effectively run an RV, offer home back-up power supply, charge an EV, or help you live van life to the fullest. Read more below 4. Jackery Explorer 1000 V2 Best portable power station for on-site work.

Which power station should I buy?

With over 40 top-rated power stations tested, my overall pick is the EcoFlow Delta 3 Plus. It's a great all-rounder with a decent 1024Wh battery capacity suitable for general use at home, in the car, and on job sites. In our review, we liked the fast charging, port selection, and the UPS with a 10ms switchover for continuous power.

What is portable power station output?

Portable power station output is measured in watts, and there are two numbers to look at: Continuous output is the wattage the power station can deliver on an ongoing basis. Add up the power requirements of all your electronics that need to be plugged in at the same time, and choose a power station with a higher output than that.

Why do you need a portable power station?

When you find yourself without access to electricity, the right portable power station can keep your most important electronics going. I love that portable power stations are silent (unlike home generators) and have all the right outlets and ports to power my electronics and appliances during a power outage or camping trip.
