

# **Bifacial solar panel companies**

## Overview

---

Are bifacial solar panels available in the UK?

Currently, a handful of manufacturers offer bifacial solar panels in the UK. Below are the available models, all of which are monocrystalline. As time goes by, we're sure to see more manufacturers release their own bifacial solar panels.

How many bifacial panel manufacturers are there?

There are 344 bifacial panel manufacturing companies listed below in the 'Bifacial -- Solar Panel Manufacturers - High Efficiency Crystalline' title.

What are bifacial solar panels?

Bifacial solar panels (modules) have solar cells on both sides of the unit, with glass on the front and a clear fluoropolymer sheet on the back, allowing them to produce up to 25% more energy than the typical monofacial solar panel widely used today. Bifacial modules can be used with standard racking and inverters for any type of solar array.

Why is the bifacial solar market growing?

The bifacial solar market presents significant opportunities for growth driven by several factors. Firstly, the increasing global demand for renewable energy sources is propelling the adoption of bifacial technology, which captures sunlight from both sides of the panel, enhancing energy yields by up to 30% compared to traditional panels.

## Bifacial solar panel companies
