

Bipv solar tiles

Overview

Where can metsolar BIPV solutions be used?

Metsolar BIPV solutions for roofing and solar roof tile projects are already successfully implemented and generating energy across Europe in Scandinavia region, Middle East and North America. Our flexible manufacturing allows us to deliver visually appealing and cost & energy efficient roofing solutions.

Can a BIPV solar roof be used in a residential building?

While most BIPV products are designed for large commercial buildings, there are exceptions. The Tesla Solar Roof is a prime example of BIPV's rising popularity within residential home construction.

Is a Tesla Solar Roof a BIPV?

Yes, the Tesla Solar Roof is a prime example of BIPV. Any structural building material that can generate solar electricity, like the Tesla Solar Roof, technically counts as BIPV.

What is a BIPV solar panel and how does it work?

Building-integrated photovoltaics (BIPV) are a category of dual-purpose solar products that generate solar electricity and work as a structural part of a building. Unlike traditional solar panels, BIPV provides an actual structural function to the buildings they're installed on.
