

Bucharest PV solar container prices

Overview

Can a prosumer install a solar system in Romania?

Romania's parliament has adopted a bill mandating prosumers with PV systems with capacities from 10.8 kW to 400 kW to install energy storage systems. OMV Petrom, a majority-owned Romanian oil and gas supplier, has purchased a 50% stake in three solar projects in Romania.

How many GW of energy storage will Romania have?

Romania is aiming to have at least 2.5 GW of energy storage installed by the end of next year and to exceed 5 GW only a year later. Romania's parliament has adopted a bill mandating prosumers with PV systems with capacities from 10.8 kW to 400 kW to install energy storage systems.

Are solar panels a smart long-term investment in Romania?

With the scheduled removal of the energy price cap on April 1, more Romanians are turning to solar energy to reduce expenses and secure their energy supply. Rising electricity tariffs have further accelerated interest in renewable solutions, particularly in the residential sector, where solar panels are becoming a smart long-term investment.

How many MW of solar will be built in Romania?

The first round will include 500 MW of solar, with the remaining capacity to be allocated in next year's tender. The European Bank for Reconstruction and Development and Eiffel Investment Group are providing €24.4 million in funding for the construction of a 60 MW solar plant in southern Romania.
