

Bucharest Smart Photovoltaic Energy Storage Container Waterproof

Overview

Is Romania reopening a competition for battery storage?

Romania has reopened a competitive solicitation for battery storage for the grid integration of renewable energy, seeking "at least" 480MWh.

Does Romania have a solar PV market?

Our sister site PV Tech has covered Romania's solar PV market extensively. The Ministry also announced a €199 million call to support Romania's battery and solar photovoltaic (PV) manufacturing sectors, also funded through the NRRP, with €149.25 million for new battery production, assembly and recycling facilities.

How much money will Romania spend on solar projects?

Meanwhile, the remaining €49.75 million is intended for new projects in Romania that would add solar PV cell and module (panel) production, assembly and recycling capacity to the tune of at least 200MW per year by mid-2026.
