

# **Buenos Aires Hospital Uninterruptible Power Supply**

## Overview

---

Why do hospitals have uninterruptible power supplies?

Many hospitals have uninterruptible power supplies dedicated to specific testing bays to ensure a smooth and constant supply of utility power. Navigate outages safely and effectively during emergency situations.

Why do hospitals need a power ups system?

Operating rooms: Hospitals need constant power for surgical lights, anesthesia machines, and robots. Medical imaging: A UPS system can support CT scanners, MRI machines, and X-ray equipment. Much of this critical diagnostic equipment is sensitive to fluctuations in power.

What is ups for medical centers & hospitals?

UPS for medical centers and hospitals deliver backup power in emergencies and ensure power conditioning for critical equipment. [Learn more.](#)

What is an uninterruptible emergency power supply?

An uninterruptible emergency power supply is an emergency power supply that can supply power without interruption (a power supply that ensures continuity of AC power) even if the commercial power supply is stopped.
