How to Design A Solar Power System  
Installing The System  
Final Thoughts  
Designing a solar power system means determining the size of the system you need. This size mainly depends on the total electricity requirement of all the appliances the system will power. To do this, list all your appliances and their power (hourly) and energy (daily) consumption. The power rating of each appliance is given in watts (W), and often See more on earth911 lablittles
