

Can I bring an Alofi portable power bank

Overview

Can a 20,000 mAh power bank be used on a plane?

Your 20,000 mAh power bank is fine in carry-on, but it stays off during the flight. EVA Air, China Airlines, Uni Air: These Taiwanese carriers allow power banks up to 100Wh but prohibit in-flight use. Some, like China Airlines, may ask you to insulate the ports or store it in a zip-lock bag, especially at airports like Incheon.

Can I bring a power bank on a plane?

To answer the most questions by travellers whether can i bring a power bank on a plane, the answer is, power banks are allowed in carry-on luggage but strictly prohibited in checked baggage, with most airlines setting a 100Wh capacity limit.

Are power banks allowed in checked luggage?

The answer is simple: power banks are allowed only in carry-on bags and strictly banned in checked luggage. Most airlines set the standard limit at 100Wh per device. Power banks between 100Wh–160Wh may need airline approval, while anything above 160Wh is not permitted. Knowing these rules helps you pack smart and travel safely.

Should you buy a power bank in China?

Here's the golden rule: in China, airlines allow power banks up to 20,000mAh without any special approval. This has become the unofficial sweet spot for travelers who want enough backup power but don't want to get stuck in a security mess. If your china power bank is clearly labeled and under that limit, you're good to go.
