

Canada Mobile Energy Storage Container 40ft

Overview

What is a 40ft containerized battery energy storage system?

AZE's 40Ft containerized battery energy storage system comes in scalable containerized modules ranging from tens of kWh to MWh energy capacities. The solutions offers plug-and-play features that allow rapid installation at low installation costs.

How many MWh can a container hold?

Range of MWh: we offer 20, 30 and 40-foot container sizes to provide an energy capacity range of 1.0 – 2.9 MWh per container to meet all levels of energy storage demands. Optimized price performance for every usage scenario: customized design to offer both competitive up-front cost and lowest cost-of-ownership.

What is microgreen energy storage?

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

What are the advantages of insulated containers?

Insulated containers: safe and secure access with active thermal management to optimize battery life and offer a work-friendly operating environment.
Proven Battery Management System (BMS): achieves climate-proof operation over the widest range of hot/cold and wet/dry conditions.
