

# **Cheap wholesale rv circuit breaker for sale**

## Overview

---

What is an RV circuit breaker?

Just like your breaker at home, your RV's circuit breaker is designed to protect you and your camper in the event of a power surge, short circuit, or overloaded plug-in that could be dangerous. A circuit breaker is designed to cut off — or break — power to all devices on a particular circuit before they can cause damage.

What is the cost to buy a new RV circuit breaker?

A new RV circuit breaker costs around \$10-\$15 depending on its type and current rating. Modern RVs come equipped with outlets to provide power outside the vehicle to run any appliance. However, it can trip if an appliance draws more power than the breaker's ratings.

Do RV circuits come in different AMP sizes?

Our circuits come in different amp sizes to fit your needs and get your electric up and running in your RV. Keep your breaker box working like a charm with our replacement circuit breakers. Check out our awesome variety of RV circuits and breakers to keep your electric on for your next family vacation.
