

LLSE CONTAINERS

Community-based British solar-powered container grid-connected type

Overview

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Which solar power systems are best for container conversions?

Solar Power Systems for Container Conversions. Fitting or DIY. Sunstore's off-grid container systems are ideal for delivering sustainable power to remote areas, off-grid sites or for emergency backup. They come as two types.

What is an off-grid container system?

Fitting or DIY. Sunstore's off-grid container systems are ideal for delivering sustainable power to remote areas, off-grid sites or for emergency backup. They come as two types. An off-grid power system that delivers power to converted container buildings and container-based renewable energy systems designed to supply power to other buildings.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.
