

# Copenhagen solar Power Station Generator

## Overview

---

Who is Copenhagen green energy?

We develop onshore wind turbines projects in Scandinavia. Range: 12 - 400 MW. Copenhagen Green Energy is a fast growing Energy Developer based in Denmark serving the Scandinavia Market. We help our partners to cheaper and greener energy, measurable directly on the bottom line.

Which Copenhagen railway stations have PV modules?

Sjæloer Railway Station in Valby is the first station in Copenhagen where PV modules supply energy for the platform LED lighting (Picture 4). The total size of PV is 18 kW<sub>peak</sub>. An on-going process of renovation of all the railway stations will probably repeat this energy optimization of lighting and PV integration on platform roofs.

How to get to generator Copenhagen?

Hop on the M2 line and hop off at Kongens Nytorv. Then it's a short walk from there to Generator Copenhagen. If you're arriving at Copenhagen Central Station, catch a train to Nørreport station. You can walk from there to the Copenhagen hostel. If you're arriving by ferry, get the number 26 bus to Borgergade. You can buy tickets on the bus.

Where does Copenhagen get its electricity from?

Copenhagen (population 2m) obtains some 3-4% of its electricity from a single offshore wind farm, Middelgrunden (see also Calgary ). With 20 turbines for a total of 40MW, Middelgrunden is located in one of Copenhagen's harbours, and is highly visible from a number of vistas.
