

Cost of a 40-foot Solar-Powered Container for Mining

Overview

Why should you invest in mining containers?

The containers are well-designed and efficiently utilize space, allowing us to maximize our mining capabilities. The added security features and ability to easily expand our operations make these containers a valuable investment for our business.

Are miners better off fixing the long cost of power?

“The past year shows that miners are better off fixing the long cost of power, as opposed to flocking to areas where energy prices are cheap, but variable,” said Sergii Gerasymovych, founder and CEO of mining firm EZ Blockchain. Regulations that vary by state sometimes spark miners to move their operations.

Should you invest in a crypto mining farm?

Investing in a warehouse type crypto mining farm connected to the grid is twice as expensive and several times riskier than investing in a mobile mining unit. Otherwise, your local power provider may increase the rate of electricity or ban crypto mining in your area, leaving all your infrastructure investment deadlocked.
