

# Croatia 700 MW solar panel prices

## Overview

---

How much does solar cost in Croatia?

The maximum reference values of market premiums for solar were €0.82/kWh and €0.75/kWh for wind. The first auction for large-scale projects in Croatia took place in 2022 to procure 638 MW of new capacity. However, it only attracted tepid interest, with premiums awarded to just 107 MW of projects.

When was the first solar auction in Croatia?

The first auction for large-scale projects in Croatia took place in 2022 to procure 638 MW of new capacity. However, it only attracted tepid interest, with premiums awarded to just 107 MW of projects. The regulator offered a 300 MW quota for solar plants, but only four bids were accepted, for a total capacity of 8 MW.

How many MW of solar projects did Croatia tender?

The Croatian authorities initially reviewed 144 projects totaling 713 MW for the auction. The tender was carried out in two phases. One awarded market premiums for projects with installed capacities of more than 1 MW each, including 350 MW of solar, 60 MW of wind, and 7.25 MW of hydropower.

How much does hydropower cost in Croatia?

The final average price for the PV technology came in at €0.056 (\$0.065)/kWh, while the average price for hydropower was €0.158/kWh. The Croatian authorities initially reviewed 144 projects totaling 713 MW for the auction. The tender was carried out in two phases.
