# Czech mobile power station generator

## Overview

---

How will the Czech government support new generating stations?

The support of new generating stations will also depend upon compliance with the Czech national action plan. 3.4.2 The Czech Promoted Energy Sources Act provides, *inter alia*, that subsidies paid to generating station operators will be predominantly in the form of green bonuses, and the repayment period for investments is 15 years.

Who owns a coal-fired generating station in the Czech Republic?

Several producers including EP Energy, Sokolovská uhelná, Litvínovská uhledná, Alpiq, and Dalkia, also own and operate coal-fired generating stations in the Czech Republic with a total installed capacity exceeding 300MW. A list of entities holding electricity generation licences is available on the ERO's website [2](#) .

What is a high horsepower diesel generator?

High horsepower diesel generators are usually placed in the special soundproofed ISO containers. Diesel generators are used either for standby/emergency power, continuous or prime power applications. We are official dealer of Cummins Power Generation Company for the Czech market.

What is a prime power mobile power station?

" PRIME POWER" mobile power station contains vehicle-type and trailer-type. It can be used in outdoor operation, project repairing work, and emergency rescuing. As high-mobility power, it can response to the emergency quickly and reach the work site the first time needed, providing continuous stable power.
