

# **Denmark Aarhus solar container outdoor power n550**

## Overview

---

Does the port of Aarhus have a shore power plant?

The Port of Aarhus has an onshore power plant on its way to container ships, which will be the first of its kind in Denmark. And a new agreement stipulates that it must be supplied by Danish PowerCon. We are pleased that we can once again collaborate with PowerCon to establish a shore power facility.

Is Aarhus a sustainable port?

The Port of Aarhus, Denmark's largest commercial port, has announced the finalization of an agreement to develop one of the most advanced shore power facilities in Europe. This initiative represents a significant step forward in reducing emissions and enhancing sustainable port operations in Northern Europe.

What is a container ship facility in Aarhus?

The facility, designed specifically for container ships, will mark the first of its kind in Denmark and solidify the Port of Aarhus's commitment to green transformation. Under the agreement, Danish company PowerCon will supply the transformer station and power management system for the project.

Where is Denmark's New shore power facility located?

The facility will be located at the container terminal in Aarhus, Denmark's largest. 2024 marked the first full year of operation for the shore power facility at the cruise terminal, with 68 percent of the cruise ships docking there using shore power. The facility for container ships, however, will be a little different.
