# **Do you need an solar container outdoor power when traveling to India**

## Overview

---

Do I need a power adapter if I travel to India?

If you are traveling to India with electronic devices from a country with a different voltage or frequency, you will need to use a power adapter and possibly a voltage converter to ensure safe and proper operation of your devices. This Universal Travel Adapter is a must-have for any global traveler, offering unmatched flexibility and ease of use.

Are Indian travel plugs electrifying?

So, grab your adapters and let's dive into the electrifying world of Indian travel plugs! First and foremost, let's talk about the power situation in India. The country operates on a 230V supply voltage and 50Hz.

Do I need a voltage converter in India?

Since India uses Type C, D, and M outlets, you'll need a Type A/B to Type C/D/M adapter. Additionally, as the voltage in North America is different, you may also need a voltage converter for devices that are not dual-voltage. Ensure your devices are ready as you explore the vibrant streets of New Delhi or the beautiful landscapes of Kerala.

Do Europeans need a travel adapter in India?

Most Europeans do not need a travel adapter or transformer when traveling to India. Most device plugs will work with the outlet types in India. Also, the voltage in India is the same as in Europe. What Outlet does India Use?

Type C plug sockets have two round pins and no grounding pin.
