Energy storage power station built in Casablanca Morocco

Overview

The first large-scale electricity storage project in Morocco is the 460 MW Afourer Pumped Storage Power Station (PETS), commissioned in 2004. How many jobs will a battery energy storage project create in Morocco?

The first phase of the project is expected to create over 2,000 jobs. In terms of energy storage projects, Morocco is actively introducing battery energy storage systems (BESS) to complement renewable energy. Several Chinese companies are involved in this.

Which energy companies are launching solar-independent power projects in Morocco?

It recently tendered for solar-independent power projects with battery storage. Riyadh-headquartered Acwa Power led the winning bids for the Noor Midelt 2 and 3 projects, each 400MW of solar with attached BESS. They are part of Morocco's broader clean energy vision.

Who will participate in a new energy project in Morocco?

Chinese state-owned enterprises such as PowerChina and China Energy Engineering Corporation (CEEC), which have experience in undertaking new energy power stations and energy storage projects in Morocco, are also expected to participate in the bidding with an EPC plus long-term operation and maintenance model.

Will CDG support Gotion's project in Morocco?

CDG, Morocco's largest public financial investment institution, will support Gotion's operations of the project in Morocco. The first phase of the project, which covers power batteries, energy storage batteries and cathode and anode materials, is expected to directly create more than 2,000 local jobs, Gotion said.
