

Energy storage power station in Tokyo

Overview

How big is Japan's energy storage capacity?

Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. Japan had 1,671MW of capacity in 2022 and this is expected to rise to 10,074MW by 2030. Listed below are the five largest energy storage projects by capacity in Japan, according to GlobalData's power database.

What is Japan's first energy storage project?

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This project is still operating in a stable manner today. One feature of our grid energy storage system is that it utilizes reused batteries from EVs.

Does Tokyo Gas have a battery energy storage system?

Tokyo Gas is also participating in the Japanese utility-scale battery energy storage system (BESS) market, signing a 20-year tolling offtake deal with Australian developer Eku Energy for a forthcoming 30MW/120MWh project.

Why are battery storage systems being installed in Japan?

Several megawatt-hours of residential battery storage systems, typically paired with solar PV, are being installed in Japan on a monthly basis. This is largely due to concerns about losing power at home, given the seismic activity the country is frequently subject to, as well as extreme weather events like typhoons.

Energy storage power station in Tokyo

[Top Energy Storage Companies in Tokyo Powering Japan's ...](#)

The Urban Energy Storage Dilemma Imagine trying to power 37 million people in a 2,194 km² area - that's Tokyo's daily reality. Traditional approaches won't cut it anymore. The 2023 ...

[Tokyo's Compression Energy Storage Power Station: Solving Urban Energy](#)

Why Tokyo Needs Advanced Energy Storage Now With renewable energy accounting for 38% of Tokyo's power mix as of March 2025, the metropolitan area faces a pressing question: How do ...

[Japan's Pumped Storage Power Station Projects: Powering ...](#)

Jan 10, 2023 · In Japan, they kind of do--thanks to pumped storage power stations. These engineering marvels are critical for balancing the country's energy grid, especially as it shifts ...

[Report: Energy Storage Landscape in Japan , EU-Japan Centre](#)

1 day ago · The aim of this report is to provide an overview of the energy storage market in Japan, address market's characteristics, key success factors as well as challenges and opportunities ...

[Tokyo utilities put home battery storage in Japan's power ...](#)

Sep 5, 2024 · Home battery storage aggregation projects have launched with participation of Tokyo Electric Power Co, and Tokyo Gas, two major utility companies in the Japanese capital.

...

[Pumped Hydro: The Emerging Backbone of Japan's Energy ...](#)

Feb 17, 2025 · Japan currently has three major pumped hydro projects in various stages of completion, including one serving Tokyo that will have the world's third-largest pumped ...

[Top five energy storage projects in Japan](#)

Sep 10, 2024 · Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. Japan had 1,671MW of ...

[Top five energy storage projects in Japan](#)

GS Yuasa-Kita Toyotomi Substation - Battery Energy Storage System
Minami-Soma Substation - Bess
Nishi-Sendai Substation - Bess
Aquila Capital Tomakomai Solar PV Park - Battery Energy Storage System
Renova-Himeji Battery Energy Storage System
The GS Yuasa-Kita Toyotomi Substation - Battery Energy Storage System is a 240,000kW lithium-ion battery energy storage project located in Toyotomi-cho, Teshio-gun, Hokkaido, Japan. The rated storage capacity of the project is 720,000kWh. The electro-chemical battery storage project uses lithium-ion battery storage technology. The project was annou See more on power-technology franciszekimy .pl

Tokyo's Compression Energy Storage Power Station: Solving Urban Energy

Why Tokyo Needs Advanced Energy Storage Now
With renewable energy accounting for 38% of Tokyo's power mix as of March 2025, the metropolitan area faces a pressing question: How do ...

[Tokyo Century to build four additional wholly-owned extra ...](#)

9 hours ago · In addition to the four new projects, Tokyo Century is also developing the wholly-owned 15.6MW/64.4MWh Nagasaki Unekari Power Storage Station and a 20MW/79MWh joint ...

[Large-scale energy storage business](#)

May 21, 2024 · Interview Key Social Issue , Mitigation of climate change Large-scale energy storage business Providing a platform that stores energy to promote the transition to ...
