Ethiopia Energy Storage Power Plant

Overview

Is Ethiopia planning a solar power plant near Addis Ababa?

Ethiopia's state-owned electric power company is planning to develop a 100 MW Solar PV power plant near the town of Metahara, 200 km east of the capital Addis Ababa. The project is supported by Power Africa, a U.S. Government-led partnership to promote new generation and increase access to electricity in Africa.

Are there power stations in Ethiopia?

This page lists power stations in Ethiopia, both integrated with the national power grid but also isolated ones. Due to the quickly developing demand for electricity in Ethiopia, operational power plants are listed as well as those under construction and also proposed ones likely to be built within a number of years.

Will a mega nuclear power plant boost Ethiopia's energy security?

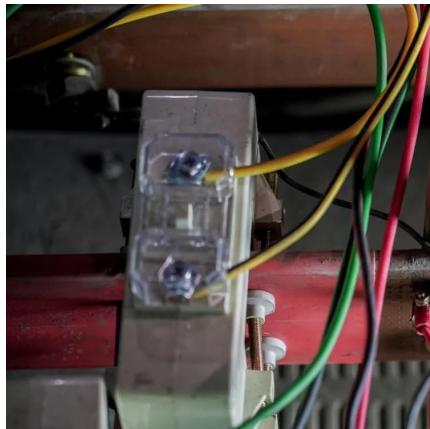

The planned construction of a mega nuclear power plant, part of Prime Minister Abiy Ahmed's recently announced \$30 billion development initiatives, is set to boost Ethiopia's energy security and drive industrial transformation.
