

European BMS battery management control system manufacturer

Overview

What is a battery management system (BMS)?

It can be called the brain of the battery that helps enhance its safety, performance, charging rates, and longevity. A BMS manages four key parameters: current, voltage, temperature, and battery capacity.

Who are BMS controls & Energy Ltd?

BMS Controls and Energy Ltd offer a comprehensive package of services to the commercial, industrial and retail sectors. Whether it's a small one-off maintenance or a large installation package, contact us now for your free no obligation quotation 01455 555929.

What is the global battery management system (BMS) market size?

The global Battery Management System (BMS) Market is expected to grow from USD 7.8 billion in 2023 to USD 18.4 billion by 2028, at a CAGR of 18.7% from 2023 to 2028. A battery management system is an electronic system that monitors and manages the operation and functionality of a rechargeable battery such as lithium-ion.

What are the major battery management system companies?

Major Battery Management System Companies Include: LG Energy Solution, Ltd. (South Korea). These companies focus on strengthening their market positions by improving their product offerings and partnering with industrial stakeholders to expand their geographic reach.
