

# **Fiji Industrial-grade solar Energy Storage Power Station**

## Overview

---

Does energy Fiji have grid storage?

Hence, for this work grid storage is not considered. At present, Energy Fiji Limited (EFL) is responsible for providing grid electricity generation to four different islands (Viti Levu, Vanua Levu, Ovalau and Taveuni) where each one of them have their own grid network and power generation stations.

How many solar panels are installed in Fiji?

In total, around 4 MW of solar PV is installed with some grid-connected solar systems planned and many off-grid solar system planned by Fiji Department of Energy with funding from Fijian government and overseas donor agencies.

What is the largest solar PV system in Fiji?

The largest system to date is Six Senses Fiji Resort on Malolo Islands in the Mamanuca Group that has a 1 MW solar PV system with 4 MWh of Lithium ion battery storage system (SEANZ 2017).

Does Fiji have solar power?

According to the annual reports of Energy Fiji Limited (EFL), there has been some solar electricity generated from 1998 to 2007 by solar PV system that was commissioned in November 1997 (FEA 2016). In 1998, this system generated around 12 MWh of electricity and was doing well for almost 6 years.
