

Full set of solar power generation system 380v

Overview

Three phase solar pv system includes everything for a complete installation: solar panel, solar bracket, solar battery, solar inverter, solar charge controller, cables and other terminals. 32KW . How many types of off grid solar systems are there?

There are 2 types of off grid solar systems. Mode 1: When there is no national grid, the off grid system will convert the DC power into AC for the loads operation independently.

What is the difference between a national grid and off-grid Solar System?

Mode 2: When there is a national grid, the off grid system will not only supply the loads power from the solar energy, but also use the national grid or diesel generator as a back up power. 2. The local government has the subsidies for the grid-tied solar system (optional).

What are the subsidies for a grid-tied solar system?

The local government has the subsidies for the grid-tied solar system (optional) 1)Gel battery,2 years warranty. ship NEW for service. 2)Lithium battery,3 years warranty. ship NEW for service. Configuration is most complete on the market, which includes all necessary components.
