

Garden solar glass recommendation

Overview

Are solar lights good for your garden?

Solar lights are environmentally friendly lighting and with a good set, you can create an ambience that lets you enjoy your garden long after dark. Powered by solar panels, they absorb daylight and convert it to electrical energy, charging your lights so they're ready to go at night.

How do I choose the best solar lights?

To get the best from your solar lights, find a spot for the charger that's in direct sun for at least part of the day. We reveal the best solar powered garden lights and best solar post lights that are both durable and waterproof. We test to see if they survive weathering and rough treatment to find you the best outdoor lights.

How many hours can a solar light bulb light a garden?

The warm white solar LED bulbs are bright enough to light a path, boundary or entranceway and offer up to 12 hours of light in the summer, although there's an on/off switch to avoid disturbing neighbours or garden wildlife.

Are best buy solar lights good in winter?

We've been testing the best garden solar lights continuously in all weathers for five years, and we've found that particularly harsh winters can easily spell the end for sub-standard solar lights. However, all five of our Best Buy solar lights score an impressive 100% and will easily make it through the cold season.
