

Hanoi New Energy Storage Base Station 7MWh

Overview

Did Marubeni launch a megawatt-scale battery storage demonstration project in Vietnam?

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt-scale battery storage demonstration project in Vietnam.

What is the largest electricity storage project in Vietnam?

The largest electricity storage project in Vietnam is the Bac Ai Pumped Storage Hydropower Project. Located in Ninh Thuan province, the project has a capacity of 1,200 MW and is expected to play a crucial role in stabilizing the grid when it completes in a few years.

Will Vietnam develop 300 MW of Bess by 2030?

Vietnam's current goal of developing only 300 MW of BESS by 2030 appears modest, but the figure does not include systems coupled to rooftop solar systems. To foster a resilient, efficient, and sustainable energy future, Vietnam should aim high.

Why is Bess important in Vietnam's energy transition?

Regulatory Landscape The Vietnamese government has recognized the importance of BESS in the country's energy transition. The revised National Energy Policy includes new incentives for BESS installations, such as tax credits and subsidies, which are aimed at accelerating the adoption of energy storage solutions.
