# High-efficiency solar-powered container for emergency rescue in Conakry

## Overview

---

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is a solar-powered emergency shelter?

The prototype is the first solar-powered, reusable, versatile, safe, affordable, and energy-efficient emergency shelter integrating passive design, energy storage, and combined DC/AC power system.

How can solar power be used in disaster-affected communities?

Liu Chang combined solar cells with the envelope structure, while Kalpana et al. designed and utilised solar power generation systems to build small shelters with a resilient energy supply. Disaster-affected communities often live in temporary and/or transitional shelters with suboptimal living environments after displacement.

Is energy access a cross-cutting issue in humanitarian action?

Energy access and use is a cross-cutting issue in humanitarian action. Nevertheless, there is no cohesive and integrated approach amongst different clusters of actions in achieving sustainability and energy resilience for emergency shelters.
