

High-pressure type folding container for islands

Overview

What is seafold HC 40?

Compact Container Systems (CCS) has launched the SeaFold HC 40' container, the world's first five-in-one, foldable shipping container to improve operating inefficiencies, reduce unnecessary container movements, and dramatically reduce carbon emissions throughout the transportation and logistics supply chain.

What is a foldable container?

Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack. Any number of containers from 2 to 5, can be folded and stacked in such a way to form a regular container size for transport or storage.

What is maritime world's first ISO-certified five-in-one shipping container?

How do you fold a HCI container?

To fold an HCI container, an MHE would lift the roof of the container, and then the sides are folded inward. The roof is then lowered gently to rest on the folded sides creating a kind of horizontal flat-pack. Four folded HCI containers are placed on top of one another to form a single standard container size for storage or transportation.
