

High quality isolator breaker in Canberra

Overview

What is an isolator switch?

Isolator switches, also known as disconnect switches or circuit breakers, are electrical devices used to disconnect electrical circuits from their power source. They provide a means of isolating circuits or equipment for maintenance, repair, or safety purposes.

What is a 100 amp isolator switch?

A 100 amp isolator switch can isolate power to server racks and cooling systems, preventing electrical hazards during servicing. RS is a trusted supplier and distributor of isolator switches, offering a comprehensive range of high-quality products from leading brands such as RS PRO, ABB, Eaton, Schneider Electric, Siemens, and more.
